

Fun on Mercury

Mercury Marathon

Want to test your boundaries? Want to test your skills? Come to the March Mercury Marathon! Fulfill your life long dreams; it's easier here than anywhere else! You weigh half your weight so it's twice as easy!

Sand dune Skiing

Forget the snow; sand is the way to go! Because Mercury has 37% of the gravitational pull Earth does, you can get more air without hurting your derriere! No need to pack your heavy snow gear, the weathers always clear! Daredevils enjoy Caloris Basin, enjoy the largest natural half pipe on this exciting planet!

Rent a Sand Mobile

The terrain of craters, hills, and valleys allows for exciting and adventurous fun! Mercury's existence has been known since before the third century, so get your Indiana Jones hat ready to experience one of the least explored inner planets. An exploration even Lewis and Clark would envy!

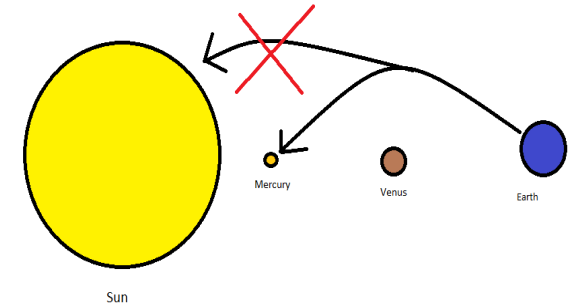

Mercury's Creamery

Come to Mercury's Creamery- the coldest cone in the galaxy! With a temperature dropping to -300°F , Mercury's a great place for deliciously cold ice cream! Appreciate your ice cream on your daytime excursions around the planet where temperature can rise to 870°F .

Vitamin D Resort

Feeling a little under the weather? Get a little boost of sunshine at the Vitamin D resort! The sun not only appears 2 times larger, the rays are amazingly 7 times stronger! Worried you'll miss those starry nights? Don't worry you can bask in the sun and admire the stars at any time of day!

Space Suit Corporation

Directions

- 1) Leave Earth
 - 2) Fly past Venus
 - 3) Take left turn onto Mercury
- If you hit the Sun you've gone to far!
